Whatsapp Messenger: +355699552080
Address: Fresk, Muhamet Deliu, 1003, Tirana, Albania (Home)

● ABOUT ME

● Software engineer who designs, builds, and ships real products — from the first mockup to the Play Store listing. I work across web and Android with HTML5, CSS3, JavaScript, TypeScript and Kotlin, and I put AI to work where it matters: chatbots, prompt engineering, neural text-to-speech.

Shipped work includes Lexo Libra (Albanian e-book platform: 700+ books, Android app live on Google Play), ERiON TV (Albanian TV streaming app, live on Google Play), Dertli Bot (live AI chatbot on a serverless backend with automatic failover and a voice layer), the price-comparison platforms ÇmimRadar and MarketRadar, the TRYEZA restaurant-reservation platform, and a clean QR scanner for Android. I also bring hands-on knowledge of IPTV and streaming technology, realtime voice (LiveKit), website deployment, DNS management, and security best practices. Fast learner, clear communicator — at my best with clients and teams that aim high.

● EDUCATION AND TRAINING

15/10/2022 – 23/07/2025 Tirana, Albania

COMPUTER ENGINEERING European University of Tirana

Field of study Information and Communication Technologies (ICTs) not further defined, Software and applications development and analysis

● WORK EXPERIENCE

INTERNSHIP – INTENSIVE 3-MONTH PROGRAM – MUNICIPALITY OF TIRANA – 01/10/2023 – 01/03/2024 – TIRANA, ALBANIA

1. **Business or sector:** Public Administration / Transport & Infrastructure
2. Completed a full-time, 3-month intensive internship in the Transport and Infrastructure department, contributing to live municipal operations.
3. Supported transport planning, road maintenance, and infrastructure projects alongside senior engineers.
4. Used QGIS hands-on: mapped assets, placed survey points, and managed radar locations on digital city maps.
5. Collected and analyzed traffic and infrastructure data, preparing reports that fed urban planning decisions.
6. Learned municipal workflows and collaborated in a professional team using technical tools for urban transport.
7. Built strong organizational, technical, and analytical skills through daily operational work.

BROADCASTING TECHNICIAN / PROGRAM SCHEDULER – NEWS24 – 18/05/2024 – 18/06/2025 – TIRANA, ALBANIA

1. **Business or sector:** Media / Television Broadcasting
2. Ran the technical side of TV broadcasting: program scheduling, advertisement placement, and signal management.
3. Built and maintained programming schedules aligned with editorial and commercial plans.
4. Ingested and monitored TV advertisements, guaranteeing on-time delivery and flawless broadcast quality.
5. Supervised and tuned audio-video signals for stable, high-quality transmission.
6. Worked side by side with technical and editorial teams to keep every broadcast smooth and professional.
7. Thrived in a fast-paced live-media environment — sharp technical skills and precision under pressure.

RETAIL – NEPTUN – 27/06/2025 – 12/10/2025 – TIRANA, ALBANIA

1. **Business or sector:** Retail / Digital Products
2. Advised customers on digital products and services, explaining features and benefits in clear, simple terms.
3. Drove sales by guiding customers to the right product and spotlighting the advantages that mattered most.
4. Mastered persuasive product presentation — lifting both conversion and customer satisfaction.
5. Handled inquiries and complaints with professionalism and a consistently positive attitude.

6. Learned retail operations end to end: customer interaction, merchandising, and applied sales strategy.

INTERNSHIP – DIGITAL BANKING – TIRANA BANK – 25/06/2025 – 25/09/2025 – TIRANA, ALBANIA

1. **Business or sector:** Banking / Digital Services
2. Completed a 3-month internship in Digital Banking, working directly with online banking services.
3. Helped customers adopt the TiBank app: opening online accounts and banking digitally.
4. Taught clients to transfer funds and run daily operations in-app — cutting the need for branch visits.
5. Made digital banking accessible through patient, hands-on customer training.
6. Grew professional skills in customer service, digital tools, and banking operations inside a strong team.
7. Left with a genuine passion for digital finance and banking technology.

● LANGUAGE SKILLS

Mother tongue(s): ALBANIAN

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	Writing
ENGLISH	B1	B1	B1	B1	B1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● PROJECTS

2026 – Present

Lexo Libra – Albanian e-book platform & Android app

Built Lexo Libra from scratch: an Albanian digital library with 700+ books, 270+ authors and 24 categories — with neural text-to-speech audio summaries, a quiz game, an AI reading assistant, curated shelves, weekly and monthly rotations, and a podcast series. Shipped as an Android app, live in Production on Google Play.

Link https://lexolibra.netlify.app/

2026 – Present

ERiON TV – Albanian TV streaming app (Android)

Designed and shipped ERiON TV: Albanian TV streaming app for Android — 300+ live channels, EPG programme guide, automatic weekly refresh via a private Telegram pipeline. Live on Google Play.

Link https://eriontv.netlify.app/

2026 – Present

Dertli Bot – Albanian AI chatbot

Live Albanian AI chatbot on a fully serverless backend (Netlify Functions): primary/fallback provider routing with automatic failover, per-IP rate limiting and prompt-injection defenses — plus a voice layer with neural text-to-speech replies and server-side speech recognition in Albanian. Independently diagnosed a Cloudflare 403 blocking serverless IPs and escalated it through an official support ticket.

Link https://dertlibot.netlify.app/

2026 – Present

QR Code Scanner – Android app

Designed and built a clean, ad-free QR scanner for Android — camera only, zero advertising SDKs. Owned the entire Play release: privacy policy, data-safety declarations, store listing. Live in Production on Google Play.

Link https://play.google.com/store/apps/details?id=com.erionxx.qrscanner

2026 – Present

DREAM TV – Albanian TV & radio app (Android)

Cosmic-styled TV and radio app for Android: 26 live video channels, 24 official radio stations and a sleep timer. Live on Google Play.

Link https://play.google.com/store/apps/details?id=blackmaster.ex

2026 – Present

Radio Shqip – Albanian radio app (Android)

Albanian radio app with 26 verified stations and a companion web player; Android app in Google Play internal testing.

Link https://play.google.com/store/apps/details?id=com.erionxx.radioshqip

2026 – Present

TRYEZA – Albanian restaurant table-reservation platform

Albanian table-reservation platform with 21 real restaurants in Tirana, Korçë, Durrës and Shkodër: instant booking with TRZ codes, WhatsApp confirmation to the restaurant, and a "Build your dinner menu" drag-and-drop builder that sends the whole order via WhatsApp.

Link https://erionnezha.github.io/tryeza/

2026 – Present

ÇmimRadar – daily price comparator for Albanian e-stores

Automatic daily price comparator for Albanian electronics stores: deal of the day, discount alerts with push notifications, price history and community deals via Telegram bot. Scans catalogues twice a day.

Link https://cmimradar.netlify.app/

2026 – Present

MarketRadar – supermarket price comparator for Tirana

Supermarket price comparator for Tirana: build a basket and see which market is cheapest, track daily price rises and drops, dark mode, CSV export.

Link https://marketradar-tirana.netlify.app/

2026 – Present

FarmaciRadar – pharmacy price comparator for Albania

Pharmacy price comparator with 24,890 products across 5 online pharmacies: weekly price index, equivalent-drug finder, dark mode and PWA — plus a map of 810 physical pharmacies with live open-now status.

Link https://farmaciradar.netlify.app/

2026 – Present

VELTRIX – AI video portfolio & showreel

AI-video portfolio: cinematic before/after sliders comparing AI-generated photos with the finished videos, a 30-second showreel, and the full prompt protocol published under each work.

Link https://veltrix-visuals.netlify.app/

2026 – Present

JARVIS PC – Albanian voice assistant for Windows

Albanian voice assistant for his own PC (LiveKit + Gemini realtime voice): opens programs, types text with full ë/ç support, answers questions, checks the weather and searches the web — completely hands-free.

Link https://github.com/ErionNezha/jarvis-pc

2026 – Present

Filma12HD – Albanian-dubbed films & series (Vercel)

Migrated from Blogger to Vercel with a unique "golden cinema" design: 726 Albanian-dubbed films and series, all with working video, self-hosted posters and a red-curtain cinema player.

Link https://filma12hd.vercel.app/

2026 – Present

Furgon.al – intercity bus schedules from Tirana

Intercity bus and van schedules from Tirana: 29 destinations, 179 departures and 10 operators with phone numbers — built with React.

Link https://erionnezha.github.io/furgon-al/

2026 – Present

HËNA – premium menstrual cycle tracker (PWA)

Fully in Albanian: a moon-dial with live cycle progress, phase-based predictions, a calendar with daily logging (flow, 12 symptoms, mood, temperature), statistics, discreet mode, push reminders and an AI assistant — offline-first, with all personal data stored only on the device.

Link https://henaa.netlify.app/

2026 – Present

Shkurto – URL shortener with QR codes & analytics

Full-stack URL shortener with an Albanian interface: custom aliases, link expiration, server-generated QR codes, click analytics and a live dashboard. Built with Node.js/Express and deployed serverless on Netlify (Functions + Blobs storage).

Link https://shkurto.netlify.app/

2026 – Present

GitHub portfolio – 150+ live web projects

150+ web projects on GitHub, every one published with a live interactive demo and a readable source-code panel — plus a premium developer profile. A public track record of shipping.

Link https://github.com/ErionNezha

Mini-Portfolio v1

Interactive mini-portfolio designed and coded entirely from scratch — concept, layout and functionality are 100% individual work, built to demonstrate web development craft.

Link https://erionxx1.netlify.app/

Mini-Portfolio v2

Second-generation interactive mini-portfolio: a complete solo build showing both technical skill and design sensibility, from first sketch to final code.

Link https://erionnezha.github.io/terminal-portfolio/

2026 – Present

Digital Media Recovery & Restoration

Forensic-grade recovery of video archives from damaged DVDs: multi-pass ddrescue extraction, VOB/MPEG-2 structure reconstruction and remastering — 98% of an irreplaceable family archive recovered.

2026 – Present

KlikoBli – online shop & Marketplace storefront

Premium e-commerce storefront for his own shop: full catalogue with cart and filters, a live Facebook Marketplace section and one-tap WhatsApp ordering — rebranded end-to-end in black and red-orange.

Link https://klikobli.vercel.app/
